Faculty

What is the craziest, strangest, or most memorable moment that has happened in your classroom throughout your career?

"I was teaching in Florida at an elementary school, and in the course of one week a rattlesnake was in the building, I found a black widow spider on a bench where my kids were sitting, and a loose dog chased my kids around the playground at recess."

-Ms. Renaud

"When meeting parents on open house night a few years ago, a parent walked into my room and said, 'Mr. Coyle! I've seen you naked!' And indeed, it was true. This parent had babysat for myself and my 3 brothers when we were little, way back in the early/mid 1980s, thus creating one of the most uncomfortable moments of my teaching career. Of course, we laughed it off and moved on, but you get the picture."

-Mr. Coyle

What is something about you that your students would not know or expect?

"I taught Emma Watson (Hermione Granger) at my last school so it's weird seeing her on my TV when Harry Potter films are on."

-Mr. Brown

"I was hyper-competitive in high school sports. Before volleyball matches, lacrosse games and crew races, I would throw up from nerves and pressure. I have since calmed down and now mostly do solo sports like yoga and cross-country skiing."

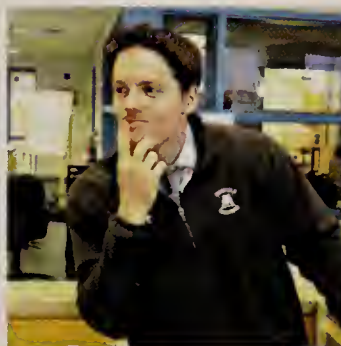

-Ms. Brooks

Where is the strangest place you've seen a student outside of school?

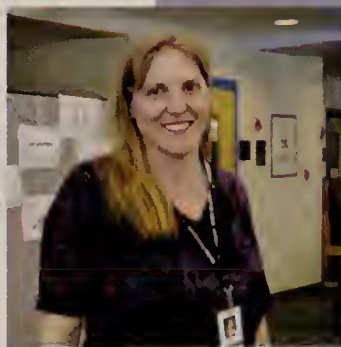

"At my dinner table. My son dated a former student of mine."

-Mrs. Emerson

"Kowloon Chinese Restaurant in Saugus. On a date with my fiancé, bumped into Katie Nickerson and her 16th birthday party. They were seated right next to us."

-Mr. Woods

"The strangest place I've seen a student is at a T stop in Boston after a big Celtics win!"

-Mrs. Brown

Best of Luck!

Here's To You, Mr. Shapiro...

A Dedication to MHS's Most Beloved Physics Teacher in Honor of his Retirement

How long have you been teaching at MHS?

32 Years

What are some of your greatest memories here?

There are so many memories. Some of them include

- a) Dressing up as Santa and giving out treats at the Christmas dance... perhaps the only man named "Shapiro" to have ever done so!
- b) Being appointed a "crowd control" officer and absolutely freezing at the Super Bowl Football Championship of 2006 (Medfield won!)
- c) Having a cameo role as the strolling violinist in the high school musical: The Matchmaker.
- d) Having the pleasure, in my capacity as National Honor Society Advisor, of announcing the results of the very first MCAS to the parents of the newly inducted members that Medfield High School was ranked #1 in the state.
- e) But, most importantly, being able to watch the sparkle in the eyes of countless students when they learned and understood something new about their relationship and place in the universe.

What will you miss the most about Medfield?

I will greatly miss having my own classroom, known well to my former students, as a place that they can and do drop in to reminisce and update me on their lives.

What has Medfield taught you over the years?

Medfield has taught me that with support, guidance, and most of all encouragement, young people can and will accomplish so much more than they, themselves, believed they could.

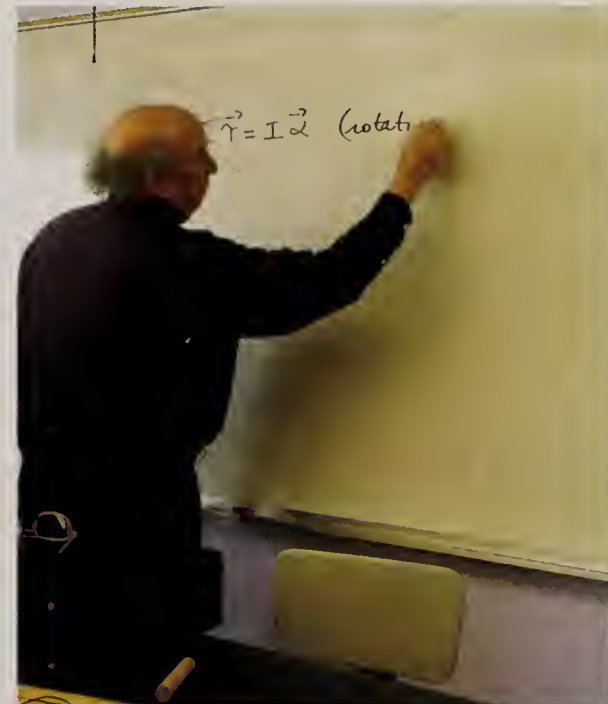

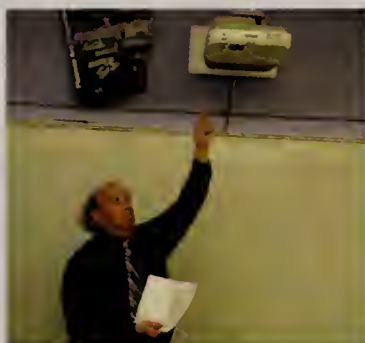

What has been your favorite part of being a teacher?

I have had the opportunity to teach the young people of entire families, sometimes five, six, or seven children. I really have enjoyed when my more recent students remind me that I taught a parent, or an aunt or uncle. I am retiring before a student is able to remind me that I taught physics to one of their grandparents! I truly have enjoyed the feeling of accomplishment that I have experienced when I realize that I have aided the next generation of young people to realize their dreams and expand their intellectual horizons.

What are you most proud of in your teaching career?

I am definitely most proud that I have been able to teach physics to many of the current teachers here at MHS. I walk the hallways, and although I see them in the present, I am able flash back to a time when they were young students here. Maybe, in some way, I (along with so many other educators) influenced them to choose a career in education. These exceptionally talented teachers carry on the finest traditions of the High School. In addition, I am exceptionally proud of the fact that thousands of students from Medfield High School have gone on to hold positions of leadership in the liberal arts, the fine arts, engineering, medicine, government, law, and, of course, education: from elementary teacher to college professor. My career here has been a most rewarding experience for me. I would do it again in an instant!

A Farewell to a Great Superintendent, Mr. Maguire

How long have you been with the Medfield School System?

22 years in Medfield as high school principal and 14 as superintendent.

What are some of your greatest memories in Medfield?

I often think of the things that I enjoyed directly with students. Many state athletic championships, drama productions, and the recent trip to China with the jazz band.

What will you miss the most about Medfield?

The many great teachers I have had the opportunity to know and work with.

What has Medfield taught you over the years?

I think a community that has a focus on education can create a great environment for learning to be received. That is very satisfying to know.

What has been your favorite part of being in Medfield?

Being able to help a wide variety of individuals when they needed that help the most.

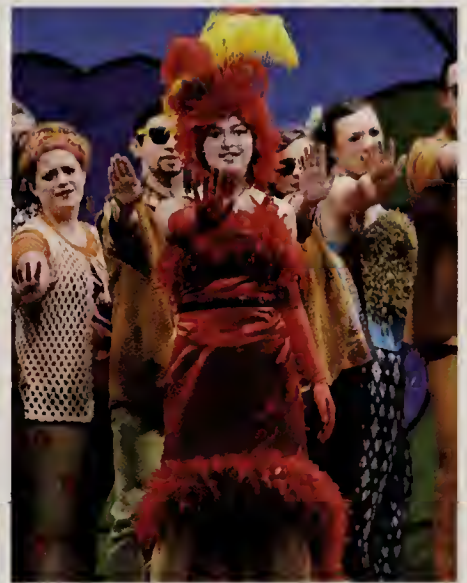

What are you most proud of in your career as the superintendent?

I think we have had a strong academic focus providing a solid education for many years. I regularly hear positive comments from graduates and their parents about how well they are doing in college and later in careers because of the Medfield education they received. That is very satisfying to know.
